

Facial Rejuvenation General Information/Consent Form for Patients

Information

1. Please be assured that all patient/practitioner relationships are kept in the strictest of confidence.
2. The first consultation takes approximately 1-1 ½ hours.
3. Facial rejuvenation sessions, last approximately 1 hour per session, and the fee is \$100.
4. A package of ten sessions with supplements and topical after-care products can be pre-paid for \$900.
5. Facial rejuvenation is usually not covered by private medical insurance, but please check with your insurance provider.
6. All services and products will be charged GST.
7. Please note that a charge of \$40 will be imposed on NSF cheques.
8. At least 48 hours notice is required for cancellations, or the full session charge will be implemented.
9. Please note that if you are more than 15 minutes late, treatment may not be given, although full charge will be implemented. This is because it can disrupt the treatments of subsequent patients.
10. Please ensure that you have eaten within 3 hours prior to treatment.
11. Treatment may be refused:
 - a. If the patient has consumed alcohol or recreational drugs within 24 hours of treatment.
 - b. At the discretion of the practitioner.

CLINIC LOCATION:

Location: Regent Medical Building, #410-2184 West Broadway, on the southeast corner of West Broadway and Yew Street, one block west of Arbutus.

Parking: There is limited free parking on the side streets, meter parking on West Broadway Street, and a pay parking lot directly behind the building.

Transit: The closest bus stop is West Broadway and Arbutus.

Consent Form

Please read carefully and ask your practitioner if you have any questions or concerns.

Microcurrent treatments provided by this clinic have been proven to be highly effective and safe. However, practitioners are required to inform patients that there may be some risks and practitioners cannot anticipate all of the possible complications and risks. In general, the following are some of the side effects that can occur.

- Drowsiness following treatment. If this occurs, you are advised not to drive following treatment
- Irritation of the skin due to allergies if a topical lotion or oil is used. Please inform your practitioner if you have any allergies. We will spot test any topicals we use during the treatment prior to application on your face and we use high quality hypoallergenic products, but if you have a tendency to allergies for topicals, we can skip the topical application altogether.
- In a small percentage of patients, symptoms can become worse before improving. This is generally a sign that healing has begun. If the worsening of symptoms is severe or lasts for more than 2 days, contact your practitioner.

Please inform your practitioner of the following:

- If you are pregnant
- If you have a pacemaker or other electrical implant
- If you have any allergies
- If you have ever felt faint or had any unusual or negative sensation from medical treatments
- If you are at higher risk for infection

I, the undersigned, have read and understood all of the above. I further agree to abide by the requirements set out therein.
